

Druckluftwerkzeuge | Druckluftmotoren

- To adjust the optimal speed under load
- To compensate the wear of tools
- To inform that the tools need to be changed to to wear
- To prevent collision
- To recongize in time the wear of the motor if speed reduces
- stainless steel housings
- With collets for high precision
- Ideal for drilling or brushing

Technical Data

Type	EBM 19000 S-ST
Article Nr.	60054917
Free speed	19000 min ⁻¹
Power	380 Watt
Gear ratio	1:1
Speed sensor	✓
Direction of rotation	clockwise
Exhaust air	to rear
Air consumption	8.5 ls
Weight	1.12 kg
Recommended hose (IW) Exhaust air ø	8.00 mm
Recommended hose (IW) Air supply ø	10.00 mm

All data related to 6.3 bar working pressure.

Subject to technical alterations.
